

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side, and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good, and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." — Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Did you ever hear of Eye-glasses made to measure? That is exactly what you get when you buy

Fits-U Eyeglasses

Not simply more becoming than others, but more comfortable, as well. They are made so that we can adjust them perfectly to your nose. Come in and let us show you how we do it.

REFINERS HOLD SMALLER STOCKS THAN LAST YEAR

Big Shipments Due to Europe Also Tend to Stiffen Prices of Raw Sugar Now

The Czarnikow-Rionda Company of 312 Wall street, in their Market Letter of October 29, point out that not only has the demand for refined sugar, but that refiners, facing large contracts for delivery in Europe, have stocks on hand far lower than those at the same date last year. Their letter follows:

"Business during the present week has been greatly restricted by the firmness of sellers, who, after sales on Tuesday, 26th inst., aggregating about 100,000 bags Cubas for prompt and November shipment at 3.28c c. f. (4.26c), have been unwilling to do anything further on that basis. Subsequently there was nothing at all available below 3.21c c. f. (4.32c) for November shipment, and only a very limited quantity of prompt Cubas at 3.175c c. f. (4.23c). As the week progressed the latter price might have been paid had there been any float sugar obtainable for immediate delivery, but a decided scarcity of tonnage in the Cuban trade precluded the possibility of securing any supplies in prompt positions. In fact, there is at present much difficulty in even getting room for first-half November clearance.

"Sugars lying in warehouses here, although obtainable on the 'bare' basis of 3.175c c. f. (4.23c), were not attractive to refiners owing to unavoidable delay in getting delivery at their refineries, the present congestion of facilities at the Port of New York being such as to appreciably retard withdrawals from warehouses.

"A fairly good demand for refined, coincident with the conditions above mentioned as attending the prompt dispatch of sugars from Cuba, has recently developed a very strong situation for the article in general, which is likely to prevail until the arrival of raws to refiners at the Atlantic ports are again of sufficient volume to satisfy melting requirements, for, if importers' holdings of 92,000 tons be deducted from the published figures of total stocks, we find a quantity now in the hands of refiners as much as 105,000 tons less than carried by them at the corresponding date last year. However, the maintenance of this position depends largely upon the attitude of sellers of the remaining Cubas either in store here, or awaiting shipment from the islands, these being practically the only 'sugars' readily available, holders thereof have control of the situation almost entirely in their own hands.

"Another factor which might also exert a beneficial influence in the near future is the melting requirements of refiners during the months of November-December. During that period last year melting at the three Atlantic ports aggregated 308,000 tons, of which about 74,000 tons went to Europe, while this year at least an equal quantity is pending shipment abroad. On the other hand, the active demand, at this time, for refined sugar for domestic consumption surely indicates that the trade had allowed their stocks to sink to an unusually low level, quite in contrast with last year's policy when, if anything, they purchased in excess of their needs during the sharp advance in prices which took place immediately after declaration of the European war. Present indications, therefore, point to relatively heavier melting between now and end of the year, which of course would necessitate larger purchases by raws by refiners.

"With reference to the rapidly approaching Cuban crop, mail advices report that even should weather prove favorable for commencement of grinding early in December, a great many plantations which have gone into elaborate improvements will be delayed in starting, owing to belated deliveries by manufacturers of machinery in this country, all of which points to a comparatively small production in the fall and during December.

"Since the foregoing was in type the situation has assumed additional strength, there being now buyers but no sellers of Cubas on store here, or for November shipment from Cuba, at 3.37c c. f. and (4.39c), after a small sale of prompt shipment to New York refiners this afternoon at 3.44c c. f. and f., having advanced the spot quotation to 4.45c, basis 96 degrees.

"Trading in sugar futures on the New York Coffee Exchange has been of much lighter volume, transactions for the past week aggregating only 10,000 tons. Today's closing bid prices of November 3.31c, December 3.26c, January 3.10c, February 2.98c, March 3.08c, April 3.20c, May 3.13c, June 3.16c, July 3.20c, August 3.22c, September 3.24c, represent net gains of 13c in November, 90c in December, and from .03c to .05c throughout remainder of the list.

"The receipts for the week at the three Atlantic ports were 33,164 tons, compared with 8739 tons last year and 6369 tons in 1913."

LOCAL FILIPINOS WILL CELEBRATE RIZAL DAY

Preparations are under way by the Filipinos of Honolulu to celebrate the anniversary of the birth of Jose Rizal, the Filipino patriot, preliminary steps in this direction having been taken at a meeting in Anie Park yesterday. Among the speakers were E. T. McKapagal, P. T. Victoria, A. Ocampo, L. Perez, F. Labrador and C. G. Ramirez. At the close of the meeting the following were appointed to have charge of the celebration, which will be on December 13: C. C. Ramirez, general director; P. T. Victoria, sub-director; B. T. McKapagal, secretary, and F. Labrador, treasurer. The director will appoint sub-committees.

MANY PASSAGES FROM BIBLE ARE USED IN CANTATA

Immediately preceding the Book of Job in the Bible, the story of Esther, the beautiful Hebrew queen of the Persians, is told in 10 short chapters. It is well worth reading afresh, even though the story is more or less familiar.

In dramatic power and romantic interest, it is quite equal to many of the modern books of fiction.

The cantata "Esther, the Beautiful Queen," to be given Friday, November 19, by a group of Chinese young people at Davies memorial hall on Emma street, is much of it taken word for word from the Old Testament story.

Following is the cast of characters:

Queen Esther, Mary Woo; King Ahasuerus, Harry Kong; Haman, Mon Fah Chung; Mordecai, Rev. Kong Yin Let; Zeresh (Haman's wife), Esther Yap; Prothetess, Fannie Chin; Mordecai's sister, Violet Tsue; Scribe, Kong En Sue; Hegal, Shan Wai Chang; King's guards, Herald, Paul Kong; Harbonah, Charles Lann; Queen's attendants, Phoebe Kong, Beatrice Yap; Zeresh's attendant, Ruth Yap; Pages, Chorus of Jews and Persians, Joseph Yap, accompanist.

MURRAY TAKES ISSUE WITH STATEMENT OF FORBES ABOUT WATER

According to Harry E. Murray, the statement made recently by Charles R. Forbes, superintendent of public works, in regard to special privileges being allowed United States government in securing water is not entirely correct.

"Permission has been given the federal government to install water meters on Navy Pier 5 and Territorial Piers 6 and 7 for the purpose of supplying their own ships with water," says Murray. "The rate of 8 cents per 1000 gallons is charged at these piers providing the federal departments furnish their own hose and labor."

"At all other wharves, or when the city water department provides labor and hose at the above wharves," Murray explains, "the rate to the federal government is the same as to all other ships, \$1.50 a thousand gallons."

The cost of living has increased more than 60 per cent in Paris since the beginning of the war.

A high power wireless station erected by the government of Guatemala was opened at Guatemala City.

NEW VAULT FOR POSTOFFICE IS DRYING OUT NOW

The new postoffice vault is now finished in the rough, and its 12-inch reinforced concrete walls are now drying out. J. L. Young, the contractor, having finished pouring the concrete and laying the steel reinforcements last week.

"It will take about three weeks for the vault to dry out sufficiently to place stamps there," said Assistant Postmaster W. C. Peterson.

"If stamps were stored in it before the walls were dry the dampness would make them stick together and ruin the whole lot."

Early this morning the wooden forms were removed and the vault will be given a final smoothing down, before the steel bank vault door is placed in the front. The vault will, when finished, have room for \$250,000 worth of stamps, envelopes, blank money orders and other valuables. In this way the postoffice can keep sufficient stock on hand to last the entire year. As it now is new supplies have to be ordered every two or three months.

"We are now keeping our money, stamps and books in four or five safes, scattered all around the building," commented the assistant postmaster. "With the vault finished we can concentrate everything in one place, which will mean more efficient handling of the business done in all departments."

The vault's inner compartment is about seven by nine feet, and 10 feet high. It will be fire and burglar proof and its foot-thick walls will mean greater safety for the postoffice valuables. To blow it up would make a noise sufficient to rouse the most somnolent "cop" in the police station, 200 feet away.

BUILDING PERMITS REACH NEW RECORD IN WEEK JUST PAST

Mounting higher by several thousands of dollars than the totals of any week for a long time past, building permits for the week ending Saturday stand at a total of \$58,677.65. Fees amount to \$118.16.

Several large contracts have been responsible for this high sum, small job permits being scarce on account of the heavy rains. Among the larger permits are the following: King's Daughters Home, \$25,600; remodeling of Armory, \$11,000; Mutual Telephone building at Kaneohe, \$1900; Jay Chee, dwelling, \$1873.40; Mrs. Norman Watkins, residence, \$3500; Wong Yee, residence, \$1100; Lum Leong, store, \$1600; and Hama Land Company, dwelling, \$2400.

INVENTOR OF NEW WIRELESS PLANT 'GETS' HONOLULU

Robert B. Wolverton Thinks Spies Ransacked His Home Looking for Plans

Robert B. Wolverton, United States radio inspector on the coast, who has been making experiments at Hollister, California, claims to have picked up messages from Honolulu when testing out his new invention, which does away altogether with costly receiving towers. Wolverton stretches wires on the ground and gets wireless messages, and claims his method overcomes all static troubles.

On returning from Hollister, Wolverton discovered that his home at 729 San Mateo avenue, San Mateo, had been entered and ransacked.

The manner in which the intruders combed the house leads the authorities to believe that the burglars were agents of a foreign power, seeking plans that would reveal the secret of Wolverton's scientific discovery.

Jewelry and silverware lay within easy reach of the burglars, but none was taken.

Despite this, panels were pried from the walls and holes cut in the walls. The extent to which the search was conducted leads the authorities to believe that the intruders were looking only for Wolverton's plans revealing his secret.

"Sending with the ground antennae is only a matter of time. No instrument has yet been perfected to send from the ground, but that is only a matter of technical development," says Wolverton.

RAILROAD AND ROADS BLOCKED BY SLIDES

HILO, Nov. 12.—There have been several landslides along the government road and the railroad out Honolulu way during the past few days. At Honolulu the belt road was blocked by a landslide and automobiles could not get through to town. The heavy rains caused the slide and tons of earth and rock came down on the road.

At Waialae the railroad track was undermined by the flood waters and all traffic was suspended. Out Hama-kua way there was also a landslide that blocked the trains.

Work is being rushed on the repairing of the road and railroad so that traffic can be resumed as soon as possible. The continuous rain interferes with the work, however, and makes the proposition a hard one.

An order for 500 box cars was received by the Pullman company from the Georgia Central railroad.

Don't Worry About What to Send Your Mainland Friends

The fine stock of Art Calendars we have on display solves your Christmas dilemmas.

Beautifully Hand-Tinted

These calendars reflect the very highest degree of skilled workmanship and artistic effort.

No gift could be more strikingly appropriate for Christmas.
